Telehealth Now Available

University Dermatology and Skin Cancer Center is now offering telehealth appointments!

Do you have an appointment that could be handle via telecommunications? Call our office today to schedule a telehealth appointment. If you have a camera on your computer or handheld device, then your appointment can be done from the safety of your couch!

As our communities continue to feel the increased impact of Coronavirus, your safety and our staff's health are our top priority. While we will continue in office appointments, our telehealth appointments allow us to continue caring for all our patients including our high-risk patients and patients that cannot make it into our office.

Call use today to schedule your telehealth appointment!
